

## FOLLOWUP REQUIRED 2010

*Please check the original physical examination form to learn the specific information needed to clear the student for participation. Some students may be cleared to play, but have issues that require medical followup. An example is high blood pressure. Most students can be cleared after being rechecked by the School Nurse. A few will need to be evaluated by their Family Physician. This year we had an issue with physical exams results not being recorded. This could be a mistake on our part or students intentionally skipping the exam. Students with incomplete physicals can make arrangements to complete the exams through Steingard Medical at no cost.*

Some students may be cleared to play, but have issues that require medical followup. An example is high blood pressure. Most students can be cleared after being rechecked by the School Nurse. A few will need to be evaluated by their Family Physician. This year we had an issue with physical exams results not being recorded. This could be a mistake on our part or students intentionally skipping the exam. Students with incomplete physicals can make arrangements to complete the exams through Steingard Medical at no cost.*
